NSE urges SMEs to go for listing

New Delhi, January 13

Encouraging small and medium enterprises (SMEs) to list on its platform, NSE said on Friday that listing will help such companies raise capital for their growth and provide visibility.

“Listing on an exchange platform will help SMEs raise capital for their growth and provide several benefits, such as visibility, business growth, wealth creation and potentially enter into strategic partnerships,” said Ravi Varanasi, Chief - Business Development, NSE. He was addressing SMEs at the MSME convention organised at the Vibrant Gujarat Global Summit in Gandhinagar. PTI
